Instructions for use and warranty details

Built In Microwave Oven  
Model No.: MWG4510

 **kLEENmaid**

Dear Customer,

Thank you and congratulations for choosing Kleenmaid.

Your new appliance has been designed and meticulously tested to ensure that it meets all your culinary requirements, and has been carefully manufactured using top quality materials to give you years of reliable performance.

For best results, carefully read the instructions on how your new appliance is to be installed. Correct installation will avoid delays and unnecessary service call costs.

Once installation is complete, please read this instruction manual carefully and get to know the controls and the features of your new Kleenmaid appliance. These simple instructions will enable you to achieve excellent results from the very first time you use it.

Again, congratulations and thank you for choosing The Best You Can Own.

KLEENMAID

EN The purchased microwave oven is a modern and easy to use product. This operator's manual will allow you to quickly and thoroughly familiarize yourself with the newly purchased oven. Please carefully read the contents of this manual with particular emphasis on the manufacturer's comments and recommendations

We trust you will be fully satisfied with our product.

**Attention!**

This microwave oven is designed for household use only. The manufacturer reserves the right to introduce changes which do not affect the operation of the appliance.

Before using the microwave, please carefully read this manual. Store it in such a place, so that it may be used in future. Please follow the instructions to ensure many years of reliable operation of your oven.

# PRECAUTIONS

## TO AVOID POSSIBLE OVER-EXPOSURE TO MICROWAVE ENERGY

(A) Do not attempt to operate the oven with the door open, because it may cause harmful exposure to microwave energy. Do not disable the safety interlocks, or attempt to circumvent them.

(B) Do not place anything between the front surface of the oven and the door or allow dirt or detergent residue to gather on sealing surfaces.

(C) Do not operate the oven if it is damaged. It is particularly important that the oven door is properly closed and that there is no damage to:

- (1) DOOR (dent)
- (2) HINGES AND LOCKS (broken or loose)
- (3) DOOR SEALS AND THE SEALING SURFACE (soiled)

(D) Any adjustments or repairs should only be entrusted to the manufacturer's properly qualified service personnel.

### Specification

Model	MWG4510
Power supply	230V~ 50Hz
Microwave Frequency	2450MHz
Sound level	54 [dB(A) re 1pW]
Power Consumption	1450 W
Nominal output power of microwaves	900 W
Nominal output power of grill	1000 W
Oven capacity	25 l
Turntable diameter	315 mm
External dimensions (height x width x depth) [mm]	388 x 595 x 400
Net weight	~18,63 kg

# SAFETY INSTRUCTIONS FOR USE

## IMPORTANT SAFETY INSTRUCTIONS. READ CAREFULLY AND KEEP FOR FUTURE REFERENCE.

1. **WARNING:** When the appliance is used in a combined mode, children can use the microwave oven only under adult supervision due to the high temperatures generated;
2. **WARNING:** If the door or door seals are damaged, the oven must not be used until it is repaired by a qualified technician;
3. **WARNING:** Performing any maintenance or repairs which require removing any shielding protecting against microwave energy is dangerous and should

## SAFETY INSTRUCTIONS FOR USE

only be entrusted to a qualified technician;

4. **WARNING:** Liquids and other foodstuffs may not be heated in sealed containers as the containers could explode;

5. **WARNING:** This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

Children should be supervised to ensure that they do not play with the appliance.

6. The minimum required clearance above the top of the microwave oven is on the installation manual;

7. Use only cookware & utensils that are suitable for use in microwave ovens;

8. When heating food in plastic or paper containers, pay special attention to the microwave oven as containers may ignite;

9. If you see smoke, turn off the appliance or unplug it from power and keep the door closed until the flames are smothered;

10. Microwave heating of beverages can cause delayed eruptive boiling, therefore care should be taken when handling the container;

11. The contents of feeding bottles and jars with food for children should be stirred or shaken and the temperature checked before serving to prevent burns;

12. Eggs in the shell and whole hard-boiled eggs should not be heated in microwave ovens since they could explode even after the microwave heating;

13) For details on how to clean door seals and adjacent parts please refer to relevant section of this manual

14) The oven must be cleaned regularly. Remove any deposits of food and leftovers;

15) Neglecting to keep the oven clean can damage the

## SAFETY INSTRUCTIONS FOR USE

---

surface, which may adversely affect the durability of the appliance and cause dangerous situations;

16) Important! If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

17) Before using the oven, test heat the grill heater (smoke can be given off through ventilation grid):

- Switch on the ventilation in the room or open a window,
- Set the oven to heat the grill heater only for about 3 minutes without heating food.

18) Keep the appliance and its cord out of reach of children;

19) This appliance is intended to be used in household and similar applications such as\*:

- staff kitchen areas in shops, offices and other working environments;
- by clients in hotels, motels and other residential type environments;
- farm houses;
- bed and breakfast type environments.

20) During use the appliance becomes hot. Care should be taken to avoid touching heating elements inside the oven.

**WARNING** - Accessible parts may become hot during use. To avoid burns young children should be kept away.

21) Steam cleaner is not to be used.

22) surface of a storage cabinet can get hot.

**WARNING:** Accessible parts may become hot when the grill is in use. Children should be kept away.

## SAFETY

1. Oven must be placed on flat a surface.
2. Turntable and rotating ring assembly should bein the oven during cooking. Carefully put cooked food on the turntable, and handle it carefully to avoid any breakage.
3. Improper use of the browning plate may cause cracking of the turntable due to the high temperature.
4. Only use bags for cooking in microwave ovens, which are correct size.
5. Microwave oven has several in-built circuit breakers to prevent emission of radiation, while the door is open. Do not tamper with these circuit breakers.
6. Do not operate the oven when empty. Operating the oven without food or dish with very low water content may result in fire, carbonization, arcing and damage to the internal chamber shell.
7. Do not cook food directly on the turntable. Excessive local heating of turntable may cause its rupture.
8. Do not heat baby bottles or baby food in the microwave. Uneven heating may occur and cause physical injury.
9. Do not use narrow-necked containers such as bottles for syrups.
10. Do not fry in deep fat in the microwave.
11. Do not do home canning in a microwave oven because not always the entire contents of pot reaches boiling point.
12. Do not use microwave oven for commercial purposes. This microwave oven is designed for household use only.
13. In order to avoid delayed boiling of hot liquids and beverages and the risk of burns, stir the liquid before placing the container in the oven and again in the middle of cooking time. Then leave the container in the oven for a short time and stir again before removing from oven chamber.
14. Do not forget that there is a dish in the microwave

## SAFETY

oven to avoid burning due to excessive cooking.  
15. When the appliance is used in a combined mode, children can use the microwave oven only under adult supervision due to the high temperatures generated;  
16. Neglecting to keep the oven clean can damage the surface, which may adversely affect the durability of the appliance and cause dangerous situations;

To reduce the risk of fire, injury to people or exposure to excessive microwave energy when using the appliance, please observe the following basic safety rules:

1. Read the user manual before using the appliance.
2. Observe all „PRECAUTIONARY MEASURES TO AVOID POSSIBLE OVER-EXPOSURE TO MICROWAVE ENERGY.”
3. As with most ovens, close supervision is needed to reduce the risk of fire inside the oven chamber.

\* See guarantee card

### **If ignition occurs:**

1. Leave the oven door closed.
2. Switch off the appliance and pull out the plug from the wall socket
3. Disconnect the power by removing or disconnecting the fuse on the distribution board.

### **Always bear in mind the following principles:**

1. Do not overcook dishes. Carefully observe the appliance when paper, plastic or other combustible materials are inserted into the oven in order to facilitate cooking.
2. Do not use the oven for storage. Do not store combustible items inside the oven, such as bread, biscuits, paper products, etc. If lightning strikes in the supply line microwave may switch on automatically.

## SAFETY

3. Remove the wire clamps and metal fixtures from containers / paper or plastic bags before placing them in the oven.
4. Microwave oven must be grounded. Only connect to a wall socket with the proper protective conductor. See „Installing the protective circuit.”
5. Install or position the oven strictly in accordance with the instructions.
6. Some products, such as whole eggs, water, oil or grease, sealed containers and closed glass jars may explode and therefore should not be heated in the oven.
7. Use this appliance only for its intended purpose as described in the manual. Do not use corrosive chemicals in the appliance. Oven is specifically designed for heating or cooking food. It is not intended for industrial or laboratory use.
8. Operating the microwave oven should be done with adult supervision at all times. Do not allow children to play with the appliance or have access to the controls.
9. Do not operate the oven when its terminal strip or plug is damaged, it is not working properly, or if it has been damaged or dropped.
10. The appliance should be serviced only by qualified manufacturer service technicians.
11. Do not cover or block the air vents on the oven.
12. Do not store or use the oven outdoors.
13. Do not use the microwave oven near water, near the kitchen sink, in a damp room or near a swimming pool.
14. Do not immerse the power cord or plug in water.
15. Keep cord away from heated surfaces.
16. Do not allow the connection cord hanging over the edge of a table or counter.
17. Cleaning:  
Before cleaning, make sure the oven is disconnected from the power source.

# SAFETY

a) After use, clean the inside of the oven using a slightly damp cloth.

b) Clean the accessories in the normal way in soapy water.

c) Dirty door frame, seal and adjacent elements should be cleaned gently with a damp cloth. When cleaning the surface of the oven door, use only mild soap or detergent applied with a sponge or soft cloth.

18. Do not use harsh abrasive cleaners or sharp metal scrapers to clean the oven door glass since they can scratch the surface, which may result in shattering of the glass.

19. Cleaning Tip---For easier cleaning of the cavity walls: Place half a lemon in a bowl, add 300ml (1/2 pint) water and heat on 100% microwave power for 10 minutes. Wipe the oven clean using a soft, dry cloth.

## UNPACKING

The appliance was protected from damage at the time of transport. After unpacking, please dispose of all elements of packaging in a way that will not cause damage to the environment. All materials used for packaging the appliance are environmentally friendly; they are 100% recyclable and are marked with the appropriate symbol.

Important! Packaging materials (bags, polyethylene, polystyrene, etc.) should be kept away from children and pets during unpacking.

## WITHDRAWAL FROM USE

At the end of its useful life, this product must not be disposed of with normal municipal waste. Instead, it should be taken to an electronic waste collection and recycling point. It is indicated by the symbol on the product itself, or on the Operator's Manual or packaging.

The materials used in making of this appliance can be reused, as indicated. By reusing or recycling the materials or parts, you will be playing an important part in protecting our environment.

Information about the relevant disposal points for worn-out electrical goods is available from your local authorities.

# INSTALLING THE PROTECTIVE CIRCUIT

## DANGER

Danger of electric shock when touched, some internal components may cause serious injury or death. Do not disassemble this appliance.

## WARNING

Electric shock hazard. Improper use of earthing can cause electric shock. Do not insert the plug into the socket before the appliance is properly installed and grounded.

The plug & cord must be made accessible after installation is complete to allow disconnection of the appliance from the power supply.

This appliance must be grounded. In the event of a short-circuit, earthing reduces the risk of electric shock. The appliance is equipped with earthing wire with an appropriate plug. The plug should be inserted into a properly installed and grounded outlet.

If you do not completely understand earthing instruction or you are unsure whether the appliance is properly grounded, please contact a qualified electrician or service technician. If you must use an extension cord, use only a three-wire extension with an earthing connector. The manufacturer shall not be liable for damage or injury resulting from connecting the microwave oven to a power source without a protective circuit or with a malfunctioning protection circuit.

1. A short power cord is provided to reduce the risk resulting from becoming entangled or tripping over a long cord.
2. If you use the extension cord:
  - 1) Extension cord must be capable of withstanding nominal current required by the appliance.
  - 2) Extension cord must be 3-wire with earthing,

Extension cord should be so arranged as not to be hung by the table top where it could be pulled by children, or caught inadvertently.

# COOKWARE

## WARNING

Risk of injury. Tightly closed containers may explode. Closed containers must be opened and plastic bags pierced before cooking.

Materials that can be used and materials to be avoided in the microwave oven.

The use of some non-metallic cookware may not be safe in the microwave oven. If in doubt, you can check the cookware following this procedure.

### Testing the cookware:

1. Fill the microwave-safe cookware with 1 cup of cold water (250 ml), and do the same with the test cookware.
2. Operate the oven with the maximum power for 1 minute.
3. Carefully touch the test cookware. If the test cookware is hot, do not use it in the microwave oven.
4. Do not exceed 1 minute cooking time.

# COOKWARE

## Materials that cannot be used in a microwave oven

Cookware	Comments
Aluminium tray	May cause an electric arc. Transfer food to microwave-safe cookware.
Cardboard carton with metal handle	May cause an electric arc. Transfer food to microwave-safe cookware.
Metal or cookware with metal frame	Metal shields the food from microwave energy. Metal frame can cause an electric arc.
Metal closure - tightened	May cause an electric arc and fire in the oven.
Paper bags	May cause a fire in the oven.
Plastic foam	Plastic foam may melt or contaminate the liquid in it when exposed to high temperatures.
Wood	Wood dries out when it is heated in the microwave oven and can crack or break.

## Materials that can be used in a microwave oven

Cookware	Comments
Aluminium foil	Only as shielding. Small and smooth pieces can be used for the coating of thin pieces of meat or poultry, to prevent excessive cooking. Arc discharge may occur if the foil is too close to the oven walls. Film must be at least at a distance of 2.5 cm from the oven walls.
Browning plate	Observe the manufacturer's instructions. The bottom of the browning plate must be at least 5 mm above the turntable. Improper use may cause cracking of the turntable.
Dinner dishes	Suitable for microwave ovens only. Observe the manufacturer's instructions. Do not use cracked or chipped cookware.
Glass jars	Always remove the lid. Use only for heating food to a suitable temperature. Most glass jars are not heat resistant and may explode.
Glassware	Use only heat-resistant glassware in the microwave oven. Make sure that there are no metal frames. Do not use cracked or chipped cookware.
Bags for microwave cooking	Observe the manufacturer's instructions. Do not seal with metal clamps.
Paper plates and cups	Cut through to allow the steam to escape. Use only for short cooking / heating. Do not leave the oven unattended while cooking.
Paper towels	Use to cover food to be heated to absorb fat. Use only for short cooking under constant surveillance.
Parchment paper	Use as a cover to prevent splashing or as a container for evaporation.
Plastics	Suitable for microwave ovens only. Should be labelled "for use in microwave ovens." Some plastic containers soften when the content is warmed up. Bags for microwave cooking and sealed plastic bags must be pierced or incised, or vented according to the directions on the package.
Plastic packaging	Suitable for microwave ovens only. Use to cover food during cooking in order to maintain moisture. Do not let plastic packing touch the food.
Thermometers	Suitable for microwave ovens only (thermometers for meat and sugar).
Wax paper	Used as a covering to prevent splashing and to keep moisture.

# COOKWARE

Cookware material	Microwaves	Grill	Combi Mode

Aluminium foil and foil containers	NO	YES	NO

## SETTING UP YOUR MICROWAVE OVEN

### Microwave oven accessories

Remove all packaging, both inside and outside the oven, before using the oven. The oven comes with the following accessories:

Turntable	1
Turntable support	1
Operator's Manual	1

- A) Control panel
- B, C) Spindle
- D) Turntable
- E) Door glass panel
- F) Door assembly
- G) System security lock - disconnects power to the oven when the door is opened during operation.

## TURNTABLE INSTALLATION

1. Never compress or place the turntable upside down.
2. When cooking always use the turntable and its ring support.
3. For cooking or heating always put the food on the turntable.
4. If the turntable breaks, please contact manufacturer service.

Equipment:

1. Grilling rack
2. Turntable glass
3. Spindle

**\* Note:** The grilling rack supplied with the appliance should only be used when the appliance is set to „GRILL”.

# INSTALLATION INSTRUCTIONS

---

- Remove all packaging materials and components.
- Check the oven for damage such as dents or door misalignment or breakage.
- Remove any protective film from the surface of the cabinet.
- Do not install the oven if it is damaged.

**Do not remove the light brown mica cover bolted into the recess in order to shield the microwave magnetron.**

## Installing

---

1. The appliance is designed for household use only.
2. The appliance can be used only after fitting in kitchen furniture.
3. For fitting instructions, please refer to „Installation guide“.
4. Microwave oven should be installed in a cabinet with a width of 60 cm and a height of 85 cm from the kitchen floor.

Do not remove the legs located in the bottom of the appliance.

Blocking the inlet and outlet openings may damage the microwave oven. Place the oven as far away from radio and television as possible. Operating microwave oven may cause interference to radio and television reception.

2. Insert the oven power plug into a standard household wall socket. Make sure beforehand whether voltage and frequency are the same as on the oven's rating plate.

**Accessible surfaces  
may become hot during  
oven operation.**

## OPERATION

---

This microwave oven has a modern electronic programmer to adjust the parameters of cooking or reheating.

### 1. Setting current time

---

Once the microwave oven is plugged into the outlet, the display shows 00:00. Proceed as follows:

1. Press  minute digits start to flash
2. Turn  to set the hour
3. Press  minute digits start to flash
4. Turn  to set the minutes
5. Press  to store current time setting

**Current time must be set so that all oven functions are available. If during time set up, the switch  is pressed, timer will automatically come back to previous set up**

### 2. Heating food

---

**Example: If you want to cook food for 20 minutes using 80% of maximum microwave power, the oven can be set as follows:**

1. Press   / , the screen displays „P1 00”.
2. Press  repeatedly or turn  to set microwave power equal to 80%, the display will show „P80” (the microwave power is marked with the appropriate symbol shown in the table on the next page).
3. Press   /  to confirm.
4. Turn  to select the cook time of 20 minutes.
5. Press   /  to start heating or  to cancel settings.

## OPERATION

**Note:** Time can be adjusted with different resolution for individual cook time ranges:

0---1 min:	5 seconds
1---5 min:	10 seconds
5---10 min:	30 seconds
10---30 min:	1 minute
30---95 min:	5 minutes

Symbols corresponding to the cooking power:

Number of steps	Function	Symbol shown on the display	Microwave power	Grill power
1	Microwave	P100	100%	-
2	Microwave	P80	80%	-
3	Microwave	P50	50%	-
4	Microwave	P30	30%	-
5	Microwave	P10	10%	-
6	Grill	G	0%	100%
7	Combi	C - 1	55%	45%
8	Combi	C - 2	36%	64%

### 3. Grilling

**NOTE:** Special rack which is supplied with the oven can only be used during grilling.

1. Press  , the screen displays „PI 00”.
2. Press repeatedly  or rotate  , to set the Grill function (indicated on the display as "G").
3. Press  /OK to confirm the selection of the grill function.
4. Turn  to set the cook time (ranging from 00:05 to 95:00).
5. Press  /OK to start grilling.

## OPERATION

---

**Note:** Once half of the grilling time has elapsed, an acoustic signal will be sounded to indicate that the food should be turned to obtain better cooking result. Open the door, turn the food and press  to resume cooking. If this is not done, the appliance will continue to operate until the set cook time has elapsed.

### 4. Combined heating

---

Combined use of grill and microwave cooking in the appropriate proportions (see C-1 and C-2 table below).

1. Press , the screen displays „PI 00”.
2. Press repeatedly  or rotate  to set the Combi function indicated on the display as „C-1” or „C-2” (the ratio of microwave to the grill power is presented in the following table).
3. Press  to confirm the selection of the Combi function.
4. Turn  to set the cook time (ranging from 00:05 to 95:00).
5. Press  to start the appliance.

### 5. Quick Start

---

Use this feature to quickly start cooking food. Once the food is placed in the microwave oven press  again and again to add cook time and start cooking. Using the Quick Start function you can set a cook time of 30 seconds to 10 minutes. Food is then cooked at maximum power.

### 6. Defrosting by weight

---

1. Press  button once, the display shows „dEF1” (defrosting by weight).
2. Turn  to adjust the weight of food (in the range 100-2000g).
3. Press  to start the defrosting process.

## OPERATION

---

### 7. Defrosting by time

---

1. Press  button twice, the display shows „dEF2” (defrosting by time).
2. Turn  to set the cook time (ranging from 00:05 to 95:00).
3. Press  to start the defrosting process.

### 8. Multi-stage cooking

---

Set the cooking programme. Three power levels can be set. Defrosting should be always set first, if it is included in a multi-step programme. The appliance will beep after each programme step has been completed. Auto Menu cannot be used in multi-step cooking.

**Example:** To defrost food for 5 minutes, then cook it for 7 minutes using 80% microwave power, do the following:

1. Press the  button twice (the display shows „dEF2.”)
2. Turn  to set the defrosting time for 5 minutes.
3. Press  , the screen displays „PI 00”.
4. Turn  to set the microwave power of 80% (the display will show „P80”).
5. Press  to confirm.
6. Turn  to select the cook time of 7 minutes.
7. Press  to start the appliance.

# OPERATION

## 9. Preset programmes

**Example:** If you want to use the „Auto Menu” to prepare 250 g of fish.

1. Turn  clockwise to select the „A3” function
2. Press  +  /  to confirm the selected preset programme.
3. Turn  to select the weight of 250g.
4. Press  +  /  to start the preset programme.
5. Microwave beeps after cooling is finished.

Menu	Weight	Display
<b>A1</b> Auto Reheat	200	200
	400	400
	600	600
<b>A2</b> Vegetable	200	200
	300	300
	400	400
<b>A3</b> Fish	250	250
	350	350
	450	450
<b>A4</b> Meat	250	250
	350	350
	450	450
<b>A5</b> Pasta	50g (with 450 ml of cold water)	50
	100g (with 800 ml of cold water)	100
<b>A6</b> Potato	200	200
	400	400
	600	600
<b>A7</b> Pizza	200	200
	400	400
<b>A8</b> Soup	200	200
	400	400

## OPERATION

---

### 10. Child lock

---

To activate child lock: Press the  for about 3 seconds until the display shows  and a long beep is heard - the child lock is activated. To deactivate child lock: Press the  for about 3 seconds until the display shows  and a long beep is heard - the child lock is deactivated.

### 11. Information functions:

---

- a) Press  during cooking to show the current power level.
- b) Press  to resume cooking after the door is opened and closed.
- d) Press  during cooking to show the current time.

### 12. Timer

---

1. Press  button twice, the display shows "00:00".
2. Turn  to set the time (ranging from 00:05 to 95:00).
3. Press  to start .

Time function is not connected with any of product's function. The function serves only in order to signal time end up.

### 13. Cleaning

---

Make sure the oven has been disconnected from power.

1. Clean the inside of the oven after use with a lightly moistened cloth.
2. Clean accessories in the usual manner with soap and water.
3. If soiled, door frame, gasket and adjacent parts should be thoroughly cleaned with a damp cloth.

# TROUBLESHOOTING

Microwave oven interferes with the TV reception	Radio and television reception may be disrupted when the microwave oven operates. The same applies to small household appliances such as a blender, vacuum cleaner and electric fan. This is normal.
Dimmed oven lighting.	When cooking with low microwave power, oven light may be dimmer. This is normal.
Condensation forms on the door, hot air comes out through vents.	When cooking, steam can be released from food. Most of the steam escapes through the vents. However some steam can collect in the form of condensation on cooler parts, such as oven door. This is normal.

Fault	Possible cause	How to correct
Oven does not start.	(1) power cord unplugged or not plugged properly into the socket	Pull the plug and put it back in after 10 seconds.
	(2) Blown fuse or tripped circuit breaker.	Replace the fuse or turn on the circuit breaker (contact manufacturer service)
	(3) No voltage in the socket	Check the outlet by plugging in other appliance.
The oven does not heat.	The door is not closed properly.	Close the door fully.
Turntable makes noise when oven operates	Rotating ring or bottom of the oven dirty.	See "Microwave oven maintenance"

## FINAL REMARKS

 Before using the microwave, please carefully read this manual. Store it in such a place, so that it may be used in future. Do not repair the oven yourself, please contact manufacturer service. The contents of feeding bottles and jars with food for children should be stirred or shaken and the temperature checked before serving to prevent burns; Regularly check the oven and its power cord for damage. If there is any damage, do not use the oven

### WARNING:

 1. Performing any maintenance or repairs which require removing any shielding protecting against microwave energy is dangerous and should only be entrusted to a qualified technician;  
2. Only give the child permission to use the oven without supervision when the child has been given appropriate guidance to use the microwave safely and is aware of the risks of misuse;  
3. If the power supply cable is damaged, it should be replaced by the manufacturer or at an authorized servicing outlet.

 Do not attempt to operate the oven with the door open, because it may cause harmful exposure to microwave energy. Do not disable the safety interlocks, or attempt to circumvent them.

 Thoroughly clean the door gasket and sealing surfaces. Do not operate the oven if it is damaged. It is particularly important that the oven door is properly closed and that there is no damage to: (1) door (bent), (2) hinges and latches (broken or loosened), (3) gaskets and the door sealing surface. Check cookware and make sure that it is suitable for use in microwave ovens.

 When heating food in plastic or paper containers, pay special attention to the microwave oven as containers may ignite;

 Microwave heating of beverages can cause delayed boiling, therefore care should be taken when handling the container;

## CLEANING AND CARE

1. Turn off the oven and remove the power plug from the wall socket before cleaning.
2. Keep the inside of the oven clean. When food splatters or spilled liquids adhere to oven walls, wipe with a damp cloth. Mild detergent may be used if the oven gets very dirty. Avoid the use of spray and other harsh cleaners as they may stain, streak or dull the door surface.
3. The outside surfaces should be cleaned with a damp cloth. To prevent damage to the operating parts inside the oven, water should not be allowed to seep into the ventilation openings.
4. Wipe the door and window on both sides, the door seals and adjacent parts frequently with a damp cloth to remove any spills or splatters. Do not use abrasive cleaner.
5. Do not allow the control panel to become wet. Clean with a soft, damp cloth. When cleaning the control panel, leave oven door open to prevent oven from accidentally turning on.
6. If steam accumulates inside or around the outside of the oven door, wipe with a soft cloth. This may occur when the microwave oven is operated under high humidity condition. And it is normal.
7. It is occasionally necessary to remove the glass tray for cleaning. Wash the tray in warm sudsy water or in a dishwasher.
8. The roller ring and oven floor should be cleaned regularly to avoid excessive noise. Simply wipe the bottom surface of the oven with mild detergent. The roller ring may be washed in mild sudsy water or dishwasher. When removing the roller ring from cavity floor for cleaning, be sure to replace in the proper position.
9. Remove odors from your oven by combining a cup of water with the juice and skin of one lemon in a deep microwaveable bowl, microwave for 5 minutes. Wipe thoroughly and dry with a soft cloth.
10. When it becomes necessary to replace the oven light, please consult a dealer to have it replaced.
11. The oven should be cleaned regularly and any food deposits removed. Failure to maintain the oven in a clean condition could lead to deterioration of the surface that could adversely affect the life of the appliance and possibly result in a hazardous situation.
12. Please do not dispose this appliance into the domestic rubbish bin; it should be disposed to the particular disposal center provided by the municipalities.

### ***Manufacturer's Declaration***

*The manufacturer hereby declares that this product meets the requirements of the following European directives:*

- *Low Voltage Directive 2006/95/EC,*
- *Electromagnetic Compatibility (EMC) Directive 2004/108/EC*
- *ErP Directive 2009/125/EC*

*and has thus been marked with the **CE** symbol and been issued with a declaration of compliance made available to market regulators.*

**MWG4510**

---

# **Installation Manual**

---

**Microwave Oven**

*Before using the microwave, please carefully read this manual.*

## DEAR CUSTOMER,

---

*Please read this manual carefully before you start to use this microwave. This way, you can ensure its proper and correct operation.*

*Please preserve this manual and store it near the appliance, so that it is available at all times for reference.*

*Observe the instructions contained herein to prevent accidents.*

*Before using the microwave, please carefully read this manual. Store it in such a place, so that it may be used in future. Please follow the instructions to ensure many years of reliable operation of your oven.*

### **Important!**

The appliance is designed for household use only.

The manufacturer reserves the right to introduce changes which do not affect the operation of the appliance.

# ACCESSORIES

---

**Important!** Do not block any air ventilation openings at the back of the unit and between the oven and the decorative frame.

## INSTALLATION IN FURNITURE UNIT

---

Cabinet should not have the rear wall behind the microwave oven (see figure).

2. Installation of microwave oven above a conventional oven

## INSTALLATION OF MICROWAVE OVEN

---

Height of furniture recess should be  $380 + 2$  mm. When inserting the oven into the cabinet recess, there should be a small gap between the upper wall of the recess and ribbed top oven guide to facilitate installation.

The plug & cord must be made accessible after installation is complete to allow disconnection of the appliance from the power supply.

## INSTALLATION OF MICROWAVE OVEN

Make a paper mounting template before installation to map a suitable distance from the edge of the cabinet and centre the rear bracket. After determining the appropriate position the bracket, drill two holes ( $\Phi$  3mm) for the bracket. Fasten the rear bracket to the cabinet.

Finally, position the oven as desired (the masking frame should be at the centre of the cabinet and be in contact with its edge). After determining the position, attach the microwave oven to the kitchen cabinet with a fixing screw (at the bottom of the masking frame - see Figure). After tightening the fixing screw in the cabinet, place a decorative cap in the hole at the bottom of the masking frame.

# KLEENMAID WARRANTY TERMS AND CONDITIONS

1. Compass Capital Services Pty Ltd ABN 96 138 214 525 trading as Kleenmaid will provide parts and labour to you the customer as set out herein.
2. Kleenmaid's Products come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.
3. The benefits given to you under this Kleenmaid Warranty are in addition to other rights and remedies to which you may be entitled under the Australian Consumer Law in relation to the Product to which this Kleenmaid Warranty relates. Subject to the conditions below, the Product is warranted by Kleenmaid and/or its agents to be free from defects in materials and workmanship for the Warranty Period for normal Domestic Use.
4. Product Identification: -
  - a. Kleenmaid reserves the right to reject claims for any services or work where you cannot produce for verification the serial number and a proof of purchase for the Product (including but not limited to the original invoice).
  - b. This Kleenmaid Warranty will be voided if the serial number for the Product cannot be verified. This is not intended to exclude, restrict or modify any right or remedy to which you may otherwise be entitled under the consumer guarantee provisions of the Australian Consumer Law.
  - c. In the event that a request for repair is made against this Kleenmaid Warranty where the serial number for the Product cannot be verified or you cannot produce for verification a proof of purchase for the Product (including but not limited to the original invoice), the repairer will not carry out any repairs on the Product and you will be charged a service call-out fee.
5. What is covered by this Kleenmaid Warranty: -
  - a. The Product is covered for faulty workmanship or parts that have failed under normal Domestic Use.
  - b. Kleenmaid and/or its agents will determine by objective testing if there are any defects in the Product and/or faulty workmanship.
  - c. This Kleenmaid Warranty is only applicable if repairs on Products are carried out within Mainland Australia.
  - d. This Kleenmaid Warranty: -
    - i. covers a Product purchased as new, manufactured for use in Mainland Australia;
    - ii. commences from the date of delivery of the Product;
    - iii. provides for the labour and replacement parts necessary to maintain the Product in good operating condition as specified in this Kleenmaid Warranty, however, if repair is needed because of Product failure during normal Domestic Use, Kleenmaid has the option to repair or replace the defective Product or part of the Product with a product or part of like kind and quality. A replacement part may be new or reconditioned of like kind and quality and may cost less than the original Product purchased and no charges or refunds will be made based on the replacement product or part cost difference; and
    - iv. is only applicable when the Product is used and operated in accordance with the Manufacturer's instructions.
6. What is not Covered by this Kleenmaid Warranty (excluded):-
  - a. any damage or failure to or of the Product or part of the Product:
    - i. due to the Product being inadequately serviced to manufacturer's recommendations;
    - ii. resulting from environmental conditions including and not limited to dirt, dust, rodents, insects, rust, corrosion, salt built-up, of or in any part of the Product;
    - iii. resulting from excessive use but fair wear and tear is excepted;
    - iv. resulting from poor installation including and not limited to positioning and externally fitted equipment such as plumbing and drainage, cabling, antennae or due to incompatibility of connected equipment;
    - v. caused by overheating as a result of sitting or positioning of the Product, where there is no provision for adequate ventilation or adequate protection from excessive dust;
    - vi. if the Product has been dismantled, repaired or serviced by any person other than someone authorised by Kleenmaid or its agents or representatives;
    - vii. caused by power surges or spikes, including and not limited to, mains power and telecommunications connections, or to other unspecified sources, incorrect power current, voltage fluctuation, amperage fluctuation, rust or corrosion;
    - viii. if the Product is dropped, collision of the Product with another object, use for which the Product is not designed, damage to the Product caused by your own negligence, accidental or deliberate misuse of the Product by you, theft, abuse, vandalism, flood, fire, earthquake, electrical storms or any other act of God or any war related events; or
    - ix. due to the introduction of abnormal heat loads to the Product;
  - b. costs of attendance and testing where no fault or defect covered by the terms of this Kleenmaid Warranty is identified in the Product;
  - c. initial setup and installation of the Product;
  - d. normal maintenance costs and costs incurred through the installation of items listed as requiring periodic replacement;
  - e. Products with removed or altered serial numbers;
  - f. consumables such as but not limited to bulbs/globes, glass, seals, filters, batteries and remote controls;
  - g. removal and reinstallation of an internal component not performed by an authorised Kleenmaid agent or representative or authorised service centre;

- h. cosmetic or structural items; or
  - i. any failures due to interference from or with other products and/or sources.
7. This Kleenmaid Warranty ceases if: -
    - a. the Product ceases to carry the original manufacturer's serial number or is sold at an auction;
    - b. the Product is rented;
    - c. damage to the Product has occurred as listed in point 7a; or
    - d. there is failure to pay monies owing on invoices as a result of non-warranty work been carried out at the request of the end user as per point 16 below.
  8. Neither Kleenmaid nor its representatives provide loan equipment under the terms of this Kleenmaid Warranty.
  9. Any unauthorised access to the internal hardware of the Product will void this Kleenmaid Warranty.
  10. Repair Notice: Products presented for repair may be replaced by refurbished Products of the same type rather than being repaired. Refurbished parts may be used to repair the Products.
  11. Replacement items are "like for like" and is not "new for old" and does not indicate in any way that a faulty Product will be replaced with a new part or unit. "Like for like" may either be a quality checked, refurbished or reconditioned unit of the same or later batch of model/size/specifications
  12. The cost of making a claim under this Kleenmaid Warranty is not covered by Kleenmaid, including any costs of transportation or travel expenses between your home and your nearest authorised service agent.
  13. Kleenmaid accepts no liability for items that are lost, damaged, or stolen as a result of freight, transport or storage. If you are required to transport the Product to an authorised service centre, you must ensure that it is securely packed and insured.
  14. On Public Holidays or other periods when regular business and wholesale operations are temporarily ceased, repairer availability and warranty response times may extend beyond the standard response times due to the unavailability of repairers and parts.
  15. For any repair performed on a Product under this Kleenmaid Warranty where no fault can be found, or the item is deemed by Kleenmaid or an authorised agent, to be not faulty under this Kleenmaid Warranty, or the repair or fault is not covered under this Kleenmaid Warranty, a 'No Fault Found' fee is payable by you. Kleenmaid will advise you of this cost and seek your agreement to pay such costs before commencing such repairs.
  16. Any repairs or services required that are outside the terms and conditions of this Kleenmaid Warranty can be carried out at your request at your cost (including where the Product has not been installed or set up correctly). Kleenmaid will always advise you of this cost and seek your agreement to pay such costs before commencing such repairs. A credit card may be required prior to the commencement of such services.
  17. Extra charges will be payable by the customer should the Product not be readily accessible without special equipment, such as but not limited to cranes and lifts or should the Product be installed in a position that service access is blocked and/or repair work is not possible without uninstalling the Product to gain access.
  18. You, the customer, may be entitled to purchase an extended warranty in respect of the Product. Any extended warranty will not be issued by Kleenmaid but by a third party. Any extended warranty services will be provided directly by the third party as principal and not as agent for Kleenmaid, under their extended warranty terms and conditions and not under this Kleenmaid Warranty.
  19. To make a claim under this Kleenmaid Warranty, please have your proof of purchase and the serial number of the Product ready and call (02) 9310 1207 during business hours.
  20. This Kleenmaid Warranty is given by:
    - Name: Compass Capital Services Pty Ltd ABN 96 138 214 525 trading as Kleenmaid
    - Business address: Level 2, Suite 3, 204 Botany Rd, Alexandria NSW Australia 2015
    - Telephone: (02) 9310 1207
  21. Definitions:
